Resolution 4: After due deliberations the internal and external evaluation pattern for theory and practical courses was approved by the committee.

Encl: Annexure –IV

Agenda 5: Any other matter with permission of the Chairman.

Resolution 5: While discussing the above agenda, all nominees and experts of the BoS were requested for the suggestions that are to be included in the curriculum. And they were suggested the following:

General Comments/ Suggestions:

1. As we have developed our curriculum as per UGC and AICTE guidelines, the university nominee and external ECE-Board of Studies members accepted the same.
2. Dr. A. M. Prasad, University Nominee & Professor of the ECE Department, JNTUK Kakinada, suggested changing up to 20% of the courses and their syllabus, if interested.
3. Dr. B. Poornaiah, Professor of the ECE Department, LBRCE, Mylavaram, suggested mapping course outcomes with Programme Educational Objectives, Programme Specific Outcomes, and Bloom's Taxonomy Levels, and the committee accepted the same and decided to incorporate it into its curriculum.
4. Dr. T. Pitchaiah, Professor of the School of Electronics, VFSTR University, Guntur, suggested mapping Course Outcomes with the seventeen Sustainable Development Goals (SDGs) in addition to Program-Specific Outcomes as per the guidelines of AICTE, which is very much necessary for accreditations, and the committee accepted the same and decided to incorporate it in the curriculum.

He discussed Indian Knowledge Systems (IKS) to map in the curriculum as a part of modern-day educational practices suggested by the UGC.

He also added that, as the students are lagging in communication skills and logical thinking, he suggests making them better by engaging in faculty interactions, conducting seminars, project presentations and evaluations, etc.

5. All external members advised and were compelled to offer minor and honor courses in the curriculum and allow students to opt in if they are interested.
6. Mr. Kalyan Chakravarthy Betham, the Technical Director of Elveego Circuits Pvt. Ltd., Bengaluru, suggested sending the students to the industries for their summer internship to get practical exposure, and the committee accepted the same to incorporate.
7. Mr. Swami Sekhar Reddy Maram, working as a Senior Test Engineer in 6D-Technologies, J.P. Nagar, Bengaluru, suggested sending the students to visit industry for the real-time exposure, and the committee accepted the same to incorporate.

According to the suggestions given by the External, Industry and Alumnus experts, the Chairman of the ECE-Board of Studies Mr. K. Babu Rao accepted to incorporate the courses with syllabus in the II year curriculum as per the UR24 course structure by taking the approval from the college academic council in its meeting.

The meeting ended with a vote of thanks proposed by Mr. K. Babu Rao, the chairman of the ECE-Board of Studies.
